HANDS-ON TRAINING

Learn by creating instead of only watching.

Ideal for: Students • Freshers • Graduates • Creators • Freelancers • Career Switchers • Working Professionals

01. PHOTOSHOP WITH AI

Build professional image-editing skills and learn how AI can speed up creative production.

COURSE DETAILS

- Photoshop interface, layers, masks, selections and non-destructive editing.
- Professional photo retouching, color correction and image enhancement.
- Compositing, poster design, social-media creatives and advertising visuals.
- AI-assisted workflows such as generative editing, background/object changes and creative variations.
- Export settings and production-ready files for digital and print use.

PROJECT PRACTICE

- Social media campaign creatives
- Product advertising artwork
- Photo manipulation and compositing
- Poster / banner design
- Portfolio-ready creative projects

Outcome: Create polished commercial graphics, retouched images and AI-assisted creative assets with a portfolio mindset.

02. PREMIERE PRO WITH AI

Learn professional video editing from raw footage to polished, platform-ready videos.

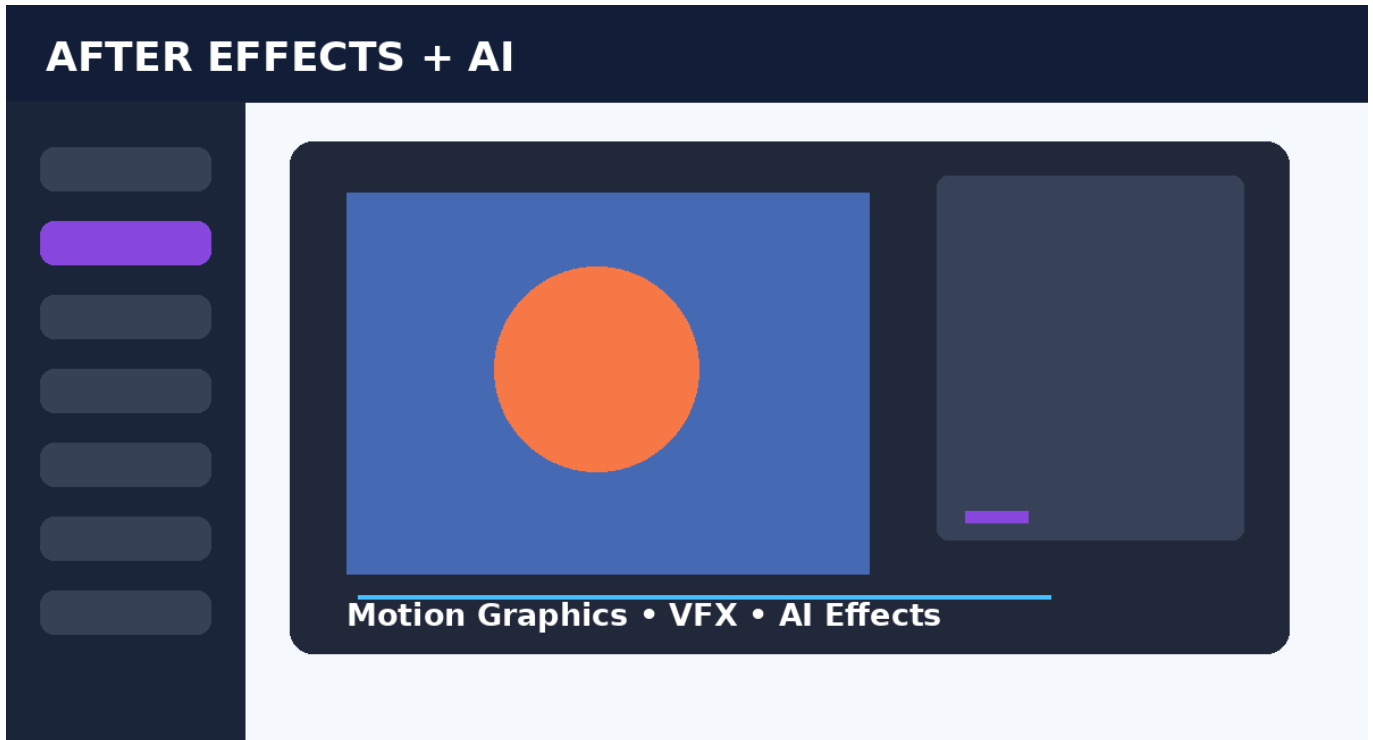

EDITING FOUNDATIONS	Project setup, media organization, timeline editing, cuts, transitions and professional workflow.
STORYTELLING	Pacing, shot selection, sequence building, hooks and audience-focused editing.
AUDIO & COLOR	Dialogue cleanup, music, sound effects, basic color correction and finishing.
AI-ASSISTED WORKFLOW	Use AI features to speed up repetitive tasks, captions, search, cleanup and creative iterations.

Portfolio projects: YouTube videos • Instagram/Reels • promotional videos • interviews • branded content • short-form social edits.

Outcome: Plan, edit, polish and export professional videos while using AI to improve speed and creative efficiency.

03. AFTER EFFECTS WITH AI

Add motion, animation and visual effects that make videos look more professional and engaging.

MOTION GRAPHICS	Text animation, shape layers, keyframes, transitions, lower thirds and title sequences.
VFX & COMPOSITING	Green screen, masking, tracking, compositing and visual enhancement workflows.
AI-ASSISTED CREATIVITY	Explore AI-supported ideation, asset creation and faster visual-production workflows.
REAL-WORLD PROJECTS	Create intros, ads, social videos, motion posters, explainer graphics and portfolio pieces.

CAREER OUTCOMES

- Build a strong video-editing and motion-graphics portfolio.
- Work across social media, advertising, content creation, post-production and freelance projects.
- Develop practical skills with Photoshop, Premiere Pro, After Effects and AI-assisted workflows.
- Receive resume, interview, portfolio and job-assistance support.
